

## **Beautiful Change**

Oh I'm going to find some peace of mind  
At any time I could change, any day  
A beautiful change

Some low sinking clouds become reindeer  
While I'm standing here at my door looking for  
A beautiful change

The snow is here the sky is bright, bright

Flower forth and soon, branch of Easter  
I want to be here when he meets me he will see  
A beautiful change

When he wades into the yard  
Nothing has been what I thought so far  
Unforeseen this most sweet  
Beautiful change

The snow is here the sky is bright, bright

So I'm going to find some peace of mind  
At any time I could change, any day  
A beautiful change
