

## Frogs' Chorus

Way down south where the air is clear, we decided to spread some cheer  
So came together without much fuss and formed a choir, the frogs' chorus.  
At first we struggled to hit the notes, but worked together to open our throats;  
Now our voices they hold no fear, it's fun and laughter that we share

### **Chorus:**

We sing with heart, we sing with joy, we sing together both girls and boys  
Ribbit, ribbit, we're a happy team, ribbit, ribbit we share a dream  
Like frogs in the garden croaking strong, happy little reptiles united in song

We live in the beauty of the countryside, here it's easy to be inspired  
With birds, bees, roos and frogs, dotted in the swamps, the fields and logs  
We sing together to understand, expressing our feelings with voice and sound  
We sing together so we feel calm, happy little reptiles relaxed on the farm

### **Chorus:**

We sing with heart, we sing with joy, we sing together both girls and boys  
Ribbit, ribbit, we're a happy team, ribbit, ribbit we share a dream  
Like frogs in the garden croaking strong, happy little reptiles united in song

When we get together we feel part of a community with people at its heart  
Everyone is valued as they are, even if we seem a bit bizarre  
We sing together so we feel free, when you listen we hope you will see  
Joy in our hearts brought about by song, happy little reptiles, safe and strong

### **Chorus:**

We sing with heart, we sing with joy, we sing together both girls and boys  
Ribbit, ribbit, we're a happy team, ribbit, ribbit we share a dream  
Like frogs in the garden croaking strong, happy little reptiles united in song

Like frogs in the garden croaking strong,  
Happy little reptiles  
Happy little reptiles  
Happy little reptiles united in song
