

Little Light

Little light, keep the fire inside
Like a child, let it burn bright
Burn away my anger, burn away my fear
Burn away my bitterness, bad feelings here
Little light, keep the fire inside

In the cold and darkness, in the cloudy sky
There is only confusion between the truth and the lie
A little time, a little silence, is all I need to help me see
By the humble light of a candle flame I can remember the power in me

Little light, keep the fire inside
Like a child, let it burn bright
Burn away my anger, burn away my fear
Burn away the inner bad feelings here
Let it fortify my courage, fortify my will
Fortify forgiveness till my sky is clear
Little light, keep the fire inside

In the stormy winter of my heart's unrest
There is only anxiety to put me to the test
A little quiet meditation on the peace that is my soul
Brings me back to that candle flame, nothing more can take its toll

Little light, keep the fire inside
Like a child, keep it burning bright
Burn away my anger, burn away my fear
Burn away my bitterness, bad feelings here
Let it fortify my courage, fortify my will
Fortify forgiveness till my mind is still
Fortify my faith that my love will fulfill
Little light, keep the fire inside
Little light, keep the fire inside
Little light, keep the fire inside
Little light, keep the fire inside
